

IRISH WHISKEY

In order to be called an “Irish Whiskey”,
distilled spirit must be;

- ◆ aged in wood barrels for a minimum of 3 years.
- ◆ a minimum of 40% ABV.
- ◆ distilled and matured on the island of Ireland.

There are several types of Irish Whiskey including;

POT STILL IRISH WHISKEY

Pot still whiskey is whiskey made from a combination of malted barley and unmalted barley and is distilled in traditional copper pot stills. Pot Still Irish Whiskeys are characterised by full bodied flavours and a wonderful creamy mouth feel.

BLENDED IRISH WHISKEY

A blended whiskey is a combination of 2 or more styles of whiskey (grain, pot still or malt whiskey).

GRAIN IRISH WHISKEY

Grain whiskey is typically produced from a mash of maize and malted barley. Grain whiskey is lighter in character than pot still whiskey and generally the characteristics display delicate, fragrant and floral notes.

MALT IRISH WHISKEY

A single malt whiskey is made exclusively from malted barley and is distilled using a pot still.
